

Hi CBD Brokers,

Below is Part 5 of 5 recapping our marketing/technology class. Part 5 focuses on the upgrades and best practices to our Lone Wolf software that we discussed at the class. One of the most exciting features we shared was that LoadingDocs was going to increase their size limits to emailing into your clipboard. That upgrade has now been implemented and you are now able to email your pdf contracts that are up to 30 MB's. This is a huge upgrade from the previous 10 MB limit. If you haven't used this feature yet, check it out! There are 4 short videos links below (each less than 1 minute). Please take the 5 minutes and watch for some great tips.

Lone Wolf

We have added a new section to the bottom of the [CBD Intranet guide](#) called Lone Wolf Updates and Best Practices. You will find detailed information on the 4 items listed below as well as links to the short videos below.

How To:

- **Email documents directly into your clipboard** - [Email to Clipboard](#)
- **Drag and drop files from your computer to your clipboard** - [Drag and Drop](#)
- **Quick link on your profile page to a detailed view of your transactions** - [Profile Transactions](#)
- **View your year to date earnings on your Agent Earnings History report** - [Earnings](#)

If you missed Parts 1-4 emails...here they are:

[Part 1 Marketing Recap](#) (CloudCMA)

[Part 2 Marketing Recap](#) (CB National)

[Part 3 Marketing Recap](#) (CBD Marketing ideas)

[Part 4 Marketing Recap](#) (CBD Technology ideas)

Thanks and have a great day,

Dave Danforth
